Collana: --

Prezzo di copertina: 15 euro

ISBN: 978-88-96328-97-2

Lingua: inglese

Data di edizione: luglio 2014

Il libro

Baseball is a bat-and-ball game played between two teams of nine players each who take turns batting and fielding. Today a multi-billion dollar industry, Baseball has come a long way from its crude and humble beginnings in the fields of 19th Century America. More than a game, Baseball remains an inseparable part of the American heritage and an intrinsic part of our national psyche. For many of us, notions of team, fair play, and athletic excellence first occurred on a red clay diamond cut from a grassy field. Referred to as "America's Pastime" since 1856, Baseball today is played by men and women of all ages and skill levels all around the world. Despite its recurrent scandals and woes, Baseball remains synonymous with the best that America has to offer. May these pages help you all to see the different sides of baseball.

L'autore

Simone Amaduzzi was born in Bologna in 1977. His passion for photography has developed over time, thanks to the artistic inheritance from his dad, Daniele Amaduzzi; it is to him, a F1 photo journalist, that He now dedicate all his efforts to turn passion into a profession. His father job allowed him to travel around the world from a very early age, giving him the chance to savour landscapes and colours which, in time, He has tried to capture in his frames. His relationship with the camera grew deeper during his work experience at Walt Disney World in Orlando, Florida. He was totally immersed in a magic world made of smiles and

positive vibes. This experience influenced his work as he now constantly look for that single, most touching detail that will inspire both himself and those who enjoy his photos.

Today He still travels around the world with the tenacity of a man and the curiosity of a child, looking for that exciting shot, hoping to be able to pass on the purity of photography and the "joie the vivre" each one of us can find in a simple frame.

Simone cooperates today with the most important National newspapers and some famous music magazine, sports magazine and nature magazine. In his photographic career He has produced a variety of calendars and other publications at National and International level.
